

VEHICLE DIMINUTION IN VALUE ASSESSMENT

Prepared by: Exclusive Vehicle Assessors

Author: Jake Roberts CAE AMIMI

Report Date: 03/06/2026

Vehicle Details

Vehicle Registration	BU72MPO
Make / Model	MERCEDES-BENZ A 180 AMG LINE ED
VIN	W1K1770842J359479
Mileage	17258

1. Purpose of Report

This report provides an independent assessment of the vehicle's diminution in value following a non-fault road traffic accident and subsequent repairs.

2. Pre-Accident Value Assessment

Pre-Accident Value: £20,187.00

Valuation Source: Glass's Guide

3. Market Availability

Live market availability analysis (AutoTrader – UK national search): 8 comparable vehicles were advertised at the time of analysis for MERCEDES-BENZ A 180 AMG LINE ED (search range: ± 1 year / $\pm 5,000$ miles (2 results) $\rightarrow$ ± 2 years / $\pm 10,000$ miles (8 results)).

Advertised prices range from £16,650 to £22,849, with an average advertised price of

Floor 2, St George's House, 56 Peter Street, Manchester, M2 3NQ | Tel. +44 (0)333 358 3532 | enquiries@exclusive-assessors.co.uk | Company No: 14812541 | VAT No:

445927758

£20,700 (average of 3 closest comparable vehicles). Keyword searches for insurance loss / accident repaired indicators returned 0 relevant listings within the same search parameters.

4. Accident & Repair Summary

Damage Overview: Moderate Collision/Impact Rear

Total Repair Cost: £6,694.66

Repair Cost as % of Pre-Accident Value: 33.16%

5. Diminution in Value Assessment

Applied Stigma Percentage: 6.5%

Stigma Percentage Methodology: The base stigma percentage is determined by reference to the repair cost as a proportion of the vehicle's pre-accident value (PAV). A moderated stigma scale is applied to the lower repair cost bands. Where the repair cost represents less than 20% of PAV, a base stigma of 3.5% is applied. Where the repair cost falls between 20% and 39% of PAV, a base stigma of 6.5% is applied. Where the repair cost falls between 40% and 65% of PAV, a base stigma of 15% is applied, reflecting substantial repair activity. Where the repair cost exceeds 66% of PAV, a base stigma of 22% is applied, reflecting severe damage with consequential impact on residual desirability and value.

Applied Market Multiplier: 1.15

Market Multiplier Methodology: The market multiplier adjusts the base stigma percentage to reflect the availability of comparable vehicles in the current retail market. A restricted supply of comparable vehicles increases the impact of stigma on any individual sale, as buyers have limited alternatives and are consequently less willing to accept a damaged vehicle at or near its undamaged equivalent price. Where five or fewer comparable vehicles are available, a multiplier of 1.25 is applied. Where six to ten comparables are available, a multiplier of 1.15 is applied. Where eleven to twenty comparables are available, no adjustment is made (multiplier of 1.0). Where twenty-one to thirty comparables are

available, a multiplier of 0.9 is applied, reflecting greater market depth. Where more than thirty comparables are available, a multiplier of 0.8 is applied. The number of comparable vehicles is established by live market search at the date of assessment, as referenced in Section 3.

Combined Applied Percentage : 7.475%

Calculated Diminution in Value: £1,509

6. Statement of Professional Opinion

It is our professional opinion that the vehicle has suffered a permanent and measurable reduction in market value as a direct consequence of the accident and repairs.

7. Assumptions & Limitations

This assessment is based on documentation provided including the engineer's report and market evidence. The damage characterisation is based upon the repair methodology and cost data provided. Regardless of the location or nature of the damage sustained, the repair history of this vehicle constitutes a material fact which must be disclosed upon any future sale. Where a vehicle is equipped with Advanced Driver Assistance Systems, repairs to any area of the vehicle may require recalibration or inspection of associated systems. The repair cost recorded reflects the full scope of work authorised and should not be characterised as minor in nature.

Statement of Truth

I confirm that I have made clear which facts and matters referred to in this report are within my own knowledge and which are not. Those that are within my own knowledge I confirm to be true. The opinions I have expressed represent my true and complete professional opinions on the matters to which they refer.

The author understands that their overriding duty is to the court and not to any party instructing or paying them. This report has been prepared in accordance with that duty and complies with CPR Part 35 and the associated Practice Direction.
